

For Precast
& Tilt-up
Construction

R U S T I C A T I O N (3/4" x 45°)

Victory Bear is an innovative concrete product supplier with deep roots in the tilt-up, pre-cast, and cast-in-place industries. We offer the most complete line of tilt-up profiles in the industry. Our Base Clip design makes our rustications and bulkheads **reusable**.

Our rustications and chamfers produce the cleanest and sharpest finishes in the industry. Victory Bear is a leader in innovative exterior concrete designs – creating products, for now and for the future, that will provide the tilt-up and pre-cast industry with unique options. Our products provide flexibility to designers, allowing for a variety of design configurations in a variety of building types.

Features & Benefits

- **100% PVC Reduces Costs** – PVC virtually eliminates concrete pitting caused by wood-wicking. It also eliminates discoloration caused by wood sugars. It almost entirely **eliminates the need for grinding and patching**, saving you man-hours or subcontractor expenses.
- **Patented “Flexible Edge Seal”** – Our patented Flexible Edge Seal fits tightly against the casting surface, preventing concrete seepage while creating **sharp, crisp lines**.
- **Hidden Fastening System** – With Victory Bear there are no finish blemishes from screw heads or excess glue. All screws and glue remnants are hidden under the surface for a sharp, **glass-like finish**.
- **New: Pre-Mitered End Pieces** – Available from Victory Bear, one foot pre-mitered end pieces provide added savings for rustications. **Save time and labor** by eliminating the need to miter-cut your ends on the job.

For Precast
& Tilt-up
Construction

R U S T I C A T I O N (3/4" x 45°)

Installation

- **Step 1** – Fasten the Base Clip to the casting surface with fasteners, tape or adhesive.
- **Step 2** – Press one end of the rustication's interlocking tooth grip into the end of the Base Clip.
- **Step 3** – Press the entire length of the rustication into the Base Clip.
- **Step 4** – Check to ensure that the interlocking grips are fully engaged and the chamfer seal is pressed firmly against the casting surface.
- **Step 5** – Use Victory Bear pre-mitered end pieces to finish rustication lines where they cross chamfers and other rustications.

Standard Profile

Part Name	Height "B"	Width "A"	Chamfer Angle	Pieces per Box	Weight lb/LF	LF per Box	Std. Length
2.25 Rustication	.75"	2.25"	45°	18	0.19	144	8'-0"
2.5 Rustication	.75"	2.50"	45°	12	0.19	96	8'-0"
3.5 Rustication	.75"	3.50"	45°	20	0.27	160	8'-0"
5.5 Rustication	.75"	5.50"	45°	14	0.40	112	8'-0"
8.0 Rustication	.75"	8.00"	45°	8	0.67	64	8'-0"
11.5 Rustication	.75"	11.50"	45°	6	1.00	48	8'-0"

Low Profile

Part Name	Height "B"	Width "A"	Chamfer Angle	Pieces per Box	Weight lb/LF	LF per Box	Std. Length
2LP Rustication	.5"	2"	60°	22	0.15	176	8'-0"
3LP Rustication	.5"	3"	60°	12	0.23	96	8'-0"

Base Clip

Part Name	Pieces per Box	Weight lb/LF	LF per Box	Std. Lengths
Base Clip	60	0.07	480	8'-0"

* Be sure to order 1' of base clip for each 1' of rustication.
